

develop

your acquiring business

by building new opportunities with your merchants

Consumers are more demanding

Consumers are "always online" and are researching more extensively on the Internet before actually buying goods. They order things online in other countries and pay with their national debit or credit card.

Merchants have to innovate

To react to changing consumer behavior, merchants are offering new payment methods, trying to optimize check-out times and welcoming new developments that will speed up payments. New technologies are drivers of change and innovation (e.g. cloud computing, pre-paid wallets and smart phone payments).

Going European

Increased cross-border business and regulations are preparing the ground for European acceptance and acquisitions. By expanding their catchment area, merchants require a growing number of card-scheme protocols.

Acquirers have to support their merchants

To develop their acquiring business, acquirers need to support their merchants in their international development and innovation roll-out.

Push the boundaries

Worldline Acquiring Processing Services

The basis of a successful acquiring business

Worldline Acquiring Processing Services aim to support you as an acquirer with **cashless payment processing services**, which cover the full acquiring lifecycle, from merchant contract set-up to merchant post-settlement activities.

End-to-end or “À la carte” services

Our acquiring processing services cover the **complete acquiring processing value chain**. The acquirer can choose the services he wants to outsource in a cost-efficient way.

Supporting a **wide range of payment devices and protocols**, which can be easily extended to new ones, Worldline Acquiring Processing Services are prepared to support your merchant business development:

- Multi-environment (face2face, remote),
- Multi-currency,
- Multi-mode (online, offline)
- Multi-scheme - many international and local card schemes with the flexibility to bring in additional ones

Strong “acquirer branded” **on-line support** for merchants to allow the acquirer to focus on its core business.

Worldline develops its own applications and owns its data centre, which gives us the full independence to respond to your needs quickly.

Worldline is more than a payment services provider. Worldline is your industrial partner with operational excellence and the long-term capacity to adapt to market evolutions, helping you, the acquirers, control the costs of compliance and profiting from economies of scale.
